Southeastern University
Department of Music

Audition Information

An audition is required of all students applying to any music degree program offered at Southeastern University. Music minors do not require an audition. The online music application form must be completed via Accepted, in order to schedule an audition. After completing the music application, an audition time will be sent to you for the date requested.

Video Submissions

A live audition during a scheduled audition date is preferred. However, if you are unable to audition on campus, a high quality live video submission will be accepted. Please follow the same requirements listed for a live audition, including completion of the online music application form.

At the beginning of the video, please state your name and degree objective. Before each piece, please state the title and composer. Alternatively, you may list the title/composer as overlay title text on the video at the beginning of each piece. At the end of your recording, please share in 2-3 minutes why you want to study music at Southeastern University and what you hope to accomplish while at SEU.

The video should be high quality (audio and video), and should not be produced or edited with any artificial audio enhancement (reverb, echo, etc.). Each piece may be recorded separately and compiled into one video.

See page 17 for more information about acceptance to the Music Business program.

Please contact the Music Department at 863-667-5144 for any additional questions.
